Valnes WebLock Online Bluetooth Wireless Installation

Best for upgrading existing hotel locks to take them online

Installation type: Wireless

Entry options: Mobile app
Remotely from mobile or desktop

Pros: Easiest way to upgrade already existing hotel locks due to no wiring

Allows online check-in for hotels.

Guests can open hotel door using the secure link in e-mail

Staff can use mobile app to open the doors;

Battery status online

Cons: No keypad or RFID entry

Batteries need changing after a while
