Valnes WebLock Online Distributed Wired + Wireless Installation (DLAV4)

Best for upgrading an existing system to take it online

Installation type: Wired + Wireless

Entry options: Keypad
Keycard
Remotely from mobile or desktop
Mobile app
RFID
QR code or bar code
API

Pros: Online solution
Distributed small installations suit
best for an existing system upgrade

Many entry options

Easy wireless installation for
doors with electric lock or strike

Cons: Maintenance takes more time due to
scattered locations of controllers
